

DENVER ATLAS - the new high capacity scales

DA – the new, universal high capacity Scales from Denver Instrument – great performance, low price!

DENVER ATLAS is a newly developed line of platform scales with high capacities for industrial demands. These new scales include a number of features that meet the requirements of the users in this field. This makes the handling of these scales easy and trouble-free.

The capacity of the new DENVER ATLAS-range goes from 6 kg to 300 kg with three different platform sizes and resolutions of 6000d and 15000d. We have designed the right scale for every demand.

As a matter of course, the DENVER ATLAS-scales are mechanically robust, with precise electronics and remarkably easy to use.

These useful applications can be easily activated:

Counting:

Fast, easy, and reliable parts counting by just pressing a button

Kilogram & Co.

Toggle between different weighing units like Kg, g, lb, oz, t

Gross/net-Function:

Fast and easy calculation of tare and net weights

Checkweighing:

To determine exact weights of single components or packed units

Quality and Features:

Convenient:

The large, backlit display for an optimum readout under all conditions.

Easy:

Large, ergonomic buttons with clear functions and symbols for convenient handling.

Sturdy:

All units will be delivered with a column. The well-engineered construction provides for a long life span of these scales. The weighing system made out of one part is very well overload protected and maintenance free. The platform is IP65 protected. 2 years warranty.

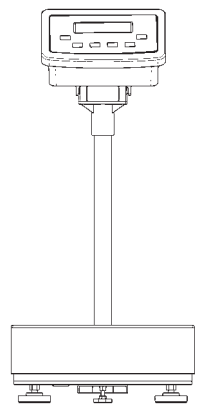

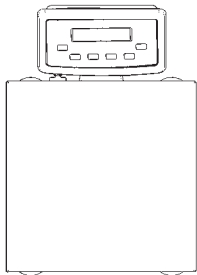

ISO:

Self-evidently, the production is ISO 9001: 2000 and ISO 14001 certified.

Price conscious:

Value for money. State of the art manufacturing processes improve the quality and reduce the prices.

Cat.-No.	Capacity	Resolution	Platform size	Column Height
DA-6H	6 kg	0.5 g	400 x 300 mm	500 mm
DA-15H	15 kg	1 g	400 x 300 mm	500 mm
DA-30H	30 kg	2 g	500 x 400 mm	750 mm
DA-60H	60 kg	5 g	500 x 400 mm	750 mm
DA-150H	150 kg	10 g	650 x 500 mm	750 mm
DA-300H	300 kg	20 g	650 x 500 mm	750 mm

Cat.-No.	Capacity	Resolution	Platform size	Column Height
DA-6L	6 kg	1 g	400 x 300 mm	500 mm
DA-15L	15 kg	2 g	400 x 300 mm	500 mm
DA-30L	30 kg	5 g	500 x 400 mm	750 mm
DA-60L	60 kg	10 g	500 x 400 mm	750 mm
DA-150L	150 kg	20 g	650 x 500 mm	750 mm
DA-300L	300 kg	50 g	650 x 500 mm	750 mm

Measuring time for all models ≤ 2 seconds.
