

CAPABILITY STATEMENT

OUR COMPANY

Established in 1962, Kenelec Scientific is one of Australia's leading scientific and environmental technology companies. Based in Melbourne, and distributors located throughout Australia and New Zealand, we are industry leaders in the supply of globally sourced, latest generation technologies at competitive prices:

- **SME supported by 30 experienced staff**
- **Office and warehouse in Melbourne, VIC**
- **Supporting Australia and New Zealand**
- **National reseller network.**

Our key services include:

- **Sales**
- **Rental**
- **Calibration**
- **Validation**
- **Service & Repairs**
- **Education**
- **Financing**

We strive to understand our customers' needs, and the strong relationships forged with our customers, suppliers and other stakeholders over many years are testament to the dedication of our staff, many of whom have 20+ years of experience in their area.

We operate a Quality Management System that fully complies to ISO 9001:2008, and are NATA-accredited to perform Particle Counter and Vane Anemometer calibrations (Accreditation number 15814). We can also arrange Public Liability insurance as required.

We look forward to working with you.

CORE COMPETENCIES

- Experienced technical sales engineers with in-depth product knowledge that are trained to understand customers' needs
- Providers of both off-the-shelf equipment and custom monitoring systems tailored to specific requirements
- State-of-the-art laboratories offering a range of essential services including calibration, service and repairs conducted by highly experienced factory-trained technicians
- Calibration and test equipment is traceable to NMI or equivalent international primary standards and ultimately to SI Units, in accordance with ILAC Policy P10
- Validation services to a range of industries
- Ongoing support of installed and existing environmental and cleanroom monitoring systems

DIFFERENTIATORS

- Over 50 years experience with reputable strengths within Mining, Occupational health and Safety, HVAC&R, Pharmaceutical and Environmental industries
- Over 45 years of representing TSI Incorporated in Australia and New Zealand; a globally recognised company at the forefront of instrumentation for environmental monitoring, particle analysis and other advanced scientific fields
- NATA-accredited (Accreditation No. 15814) to perform Particle Counter and Vane Anemometer calibrations under the requirements of ISO/IEC 17025
- Long standing affiliations with key areas of research, government, corporate and university sectors
- An established rental department providing the latest instrumentation for a range of industries including pharmaceutical and cleanroom industry,
- Research and Development successes in environmental monitoring and wireless monitoring capabilities
