

CAPABILITY STATEMENT

OUR COMPANY

Established in 1962, Kenelec Scientific is one of Australia's leading scientific and environmental technology companies. Based in Melbourne, with distributors located throughout Australia and New Zealand, we are industry leaders in the supply of globally sourced, latest generation technologies at competitive prices:

- **SME supported by over 35 experienced staff**
- **Office and warehouse in Melbourne, VIC**
- **Supporting Australia, New Zealand and parts of Asia Pacific**
- **National reseller network**

Our key services include:

- **Sales**
- **Rental**
- **Calibration**
- **Validation**
- **Service & Repairs**
- **Product Education**
- **Financing**
- **Systems Integration**

Our Quality Management System is maintained in compliance with international standards. Since 2003 we have been certified to ISO 9001 Quality for the design and development, sale, supply, rental, and servicing of scientific instruments throughout Australia, New Zealand and the Asia Pacific Region. Since 2008 our Particle counter and Vane anemometer calibration laboratories have been accredited to ISO 17025.

We strive to understand our customers' needs, and the strong relationships forged with our customers, suppliers and other stakeholders over many years are testament to the dedication of our staff, many of whom have 20+ years of experience in their area.

We look forward to working with you.

CORE COMPETENCIES

- Experienced technical sales engineers with in-depth product knowledge and a strong understanding of customers' needs
- Providers of both off-the-shelf equipment and custom monitoring systems tailored to specific requirements
- State-of-the-art laboratories offering a range of essential services including calibration, service and repairs conducted by highly experienced factory-trained technicians and qualified engineers
- Calibration and test equipment is traceable to NMI or equivalent international primary standards and ultimately to SI Units, in accordance with ILAC Policy P10
- Validation services to a range of industries
- Ongoing support of installed and existing environmental and cleanroom monitoring systems
- Design and development of monitoring systems, installation and commissioning

DIFFERENTIATORS

- Over 50 years experience with reputable strengths in Mining, Occupational Health and Safety, HVAC&R, Pharmaceutical and Environmental industries
- Over 45 years of representing TSI Incorporated in Australia and New Zealand; a globally recognised company at the forefront of instrumentation for environmental monitoring, particle analysis and other advanced scientific fields
- NATA-accredited to perform Particle Counter and Vane Anemometer calibrations under the requirements of ISO 17025 (Accreditation No. 15814)
- Long standing affiliations with key areas of research, government, corporate and university sectors
- An established Rental department providing the latest instrumentation for a range of industries including pharmaceutical and cleanroom industry
- Research and Development successes in environmental monitoring and wireless monitoring capabilities

CAPABILITY STATEMENT

PAST PERFORMANCE

- **NSW Department of Planning, Industry & Environment**
Dust Monitoring Network | 1999-2021 ongoing
- **Australian Federal Police**
PortaCount Fit Testers | 2019
- **Bureau Veritas**
Laser Ablation Systems | 2019
- **Sydney Children's Hospital Network**
EMS & Particle Counter System | 2019
- **BHP**
Mine Site Dust Monitoring | 2018-2019
- **EPA Victoria**
Dust Monitoring Network | 2018
- **CSIRO**
Particle Research Instruments | 2018
- **Department of Defence**
Particle Research Instruments | 2018
- **Westmead Institute for Medical Research**
Particle & Microbial Monitoring System | 2016
- **Baxter Health Care**
Environmental Monitoring System | 2014
- **EPA Tasmania**
Dust Monitoring Network | 2009

MARKETS AND INDUSTRIES

Kenelec Scientific supports a variety of different markets and industries with expertise in the following areas:

- Diesel Particulate Matter & Silica Monitoring
- Environmental Dust & Aerosol Monitoring
- Smoke Monitoring
- Quantitative Fit Testing
- Flow Instruments
- Fluid Mechanics
- FMS & Cleanroom Monitoring
- Hospital Monitoring
- HVAC&R
- Indoor Air Quality
- Laser Ablation
- Laser Research
- OH&S Monitoring
- Particle Research
- Pharmaceutical Research & Development
- Water & Process Monitoring
