

Follow the below steps to download software for your specific unit from the TSI website.

## Step 1

Go to the TSI website: <https://tsi.com/>

## Step 2

In the header menu, hover over **Software**, then in the drop-down menu click **TSI Software and Firmware Wizard**:

## Step 3

In the text box, **begin typing unit details** then **select the applicable make / model** from the drop-down menu:

  

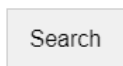

SidePak™ AM520 Personal Aerosol Monitor [AM520]

SidePak™ AM520i Personal Aerosol Monitor [AM520i]

## Step 4

Click the **Search** button:

## Step 5

Locate the relevant software and **click on the button** to initiate the download process:

TrakPro v5.2.1

This proprietary software helps users pre-program the AM520/AM520i instruments, store and organize test data as well as generate detailed graphs and data filled reports.

Follow any further instructions provided by the TSI website.
